PROF. KING HONORED

Former Maysville Teacher Elected President of the Kentucky Educational Association at Louisville

The annual meeting of the Kentucky Educational Association closed Saturday morning at Louisville with the election among others of W. P. King, superintendent of the Bellevue public schools as president, and the adoption of resolutions calling for the improvement of rural life and education, establishment of vocational schools and support of the fight against illiteracy in the State. Mr. King said his aim would be to widen the scope and enlarge the activities of the organization.

His election was without opposition, the first in the history of the association in which there was not a contest. The election followed a stormy debate upon a constitutional amendment providing for a Nominating Committee to displace the method of nominating officers from the floor.

The program Saturday was a summary of the four days' work and a final plea to the teachers for greater endeavors.

Advocated By Educators.

Higher salaries for teachers. Better roads. Neighborhood clubs. State and National aid for establishment of vocational schools. Increased efforts for safeguarding of the home as a religious institution. Submission of educational and moral problems to the masses. Night lectures in rural schools and campaign against illiteracy. Speedy change in system of taxation. Agricultural training.

Prof. King, who was vice president of the association, was elected president of the association.
